"Plein air' is a term derived from the French phrase *en plein air*, which literally means 'in the open air'. It is a familiar concept today, but in the late 1800's when the Impressionists ventured out of their studios into nature to investigate and capture the effects of sunlight and different times of days on a subject, it was quite revolutionary.

Chalk Street Painting

Using the pavement as their canvas and chalk as their medium, street painters transform streets and sidewalks into beautiful works of art. A tradition since the 16th century, street painting is enjoying a rebirth throughout Europe and the U.S. This is our first attempt at this medium in Vacaville with local high school students. **You can see chalk painters at work by the Vacaville Art Gallery today!!**
